### Shakespeare: The Animated Tales - Richard III

Run Time: 26 Min. GR: 7-12  
Subject: Language & The Arts

**Description:** The richly rewarding technique of painting on glass has been uniquely explored for this blackest of black comedies. No compassion is shown by the hunchback King Richard, whose unquenchable thirst for power destroys his wife, his brother, his best friend and his nephews, the little princes in the tower.

[ Usage rights expire 1 year after Feb. 2010 transmission date ]

Channel One Network\*

### Shakespeare: The Animated Tales - Macbeth

Run Time: 26 Min. GR: 7-12  
Subject: Language & The Arts

**Description:** The all-enveloping evil of Shakespeare's bloodiest work is captured with arresting and graphic intensity by powerful cel animation. Awash with murder, madness and dark forces, it is easy to understand the superstition that causes those in the theatre to refer to Macbeth with an unusual respect.

[ Usage rights expire 1 year after Feb. 2010 transmission date ]

Channel One Network\*

### Shakespeare: The Animated Tales - The Tempest

Run Time: 25 Min. GR: 7-12  
Subject: Language & The Arts

**Description:** A marvelous and terrifying island, peopled by spirits and monsters, is the ideal setting for demonstrating how puppets can become extraordinarily convincing "actors". Caliban becomes an almost "human" monster and Prospero's magic brings the spirit Ariel to life as no stage performance ever could.

[ Usage rights expire 1 year after Feb. 2010 transmission date ]

Channel One Network\*

### Shakespeare: The Animated Tales - Taming of the Shrew

Run Time: 25 Min. GR: 7-12  
Subject: Language & The Arts

**Description:** Love blows hot and cold for the impulsive couple Petruchio and Kate. Convincing puppet animation catches the mood of their stormy relationship in a play that uses comic twists and turns to chart the often surprising course of a powerful love affair.

### The Human Body: How It Works: The Respiratory System

Run Time: 20 Min. GR: 9-12  
Subject: Math/Science & Technology

**Description:** Following an opening segment on the importance of oxygen to the human body, this program studies the structure and function of the respiratory system. Topics include the anatomy of the upper respiratory tract, the lower respiratory tract, and the alveoli; the diffusion of gas molecules through the walls of the alveoli and capillaries, and the effect of high altitude on the diffusion process; and the mechanics of breathing via the bulk flow transport process. In addition, the program describes three factors that help prevent lung collapse and the role of the medulla oblongata in regulating breathing.

### The Human Body: How It Works: The Circulatory System

Run Time: 22 Min. GR: 9-12  
Subject: Math/Science & Technology

**Description:** This program takes a close look at the organs of the human circulatory system and how they work to sustain life. After an introductory overview, the composition of blood—its plasma, erythrocytes, leukocytes, and platelets—is analyzed, blood types and Rh factor are considered, the role of hemoglobin in transporting oxygen is explained, and the anatomy and function of the heart is examined. Factors that affect blood pressure and circulation are also discussed, along with the circulatory demands of exercise.

Channel One Network\*

### The Human Body: How It Works: The Skeletal and Muscular System

Run Time: 22 Min. GR: 9-12  
Subject: Math/Science & Technology

**Description:** This program deconstructs the human skeletal and muscular systems, two interdependent assemblies that endow the body with structure and movement. Beginning with an introductory overview, the video identifies the body's bones by dividing the skeleton into its axial and appendicular components, analyzes bone composition, describes the process of bone repair, and categorizes bone and joint types. The program then shifts focus to the skeletal muscular system—a detailed study of muscle cells, fibers, bundles, and connective tissue. The ATP-fueled process of muscle contraction is addressed as well.

### Accept or Decline? The Applicant Perspective

Run Time: 23 Min. GR: 9-12  
Subject: Health & Fitness

**Description:** This ABC News program considers the higher education endgame where the applicants, once so keen to pitch themselves to top colleges and universities, are now wooed by those who accepted them as the schools seek to close the deal. Several Georgetown University staff members, one candidate who is Georgetown-bound, and two who choose to turn the university down share their perspectives on a variety of key topics: affirmative action, financial aid, and campus culture, to name only three.

### Admit, Defer or Reject? The Admissions Perspective

Run Time: 23 Min. GR: 9-12  
Subject: Health & Fitness

**Description:** After the grades, test scores, essays, and other credentials of students seeking early admission reach the colleges and universities of their choice, the waiting game begins. In this ABC News program, correspondent Michel Martin goes inside Georgetown University's admissions process to take an in-depth look at how that august institution makes its rulings on the many hopefuls who apply—ten for each available slot. Representative committee participants, including a member of the admissions staff, a dean, a faculty member, and an undergrad, give their views, as do some high school students hoping to make the cut.

### Getting an Edge: Early Admission

Run Time: 22 Min. GR: 9-12  
Subject: Health & Fitness

**Description:** To help improve the odds of being accepted by America's most desirable colleges and universities, increasing numbers of high school students are getting a jump on the competition by applying for early admission. This ABC News program looks at the controversial process and contrasts it with Georgetown University's nonbinding early action alternative. The marketing efforts of Georgetown—and of some of its would-be freshmen—are discussed. The weighty influences of college rankings and test scores are also addressed, as are unfair advantages of socioeconomic class and a deep ambivalence about the perceived advantages of race.

### Top Careers in Two Years: Health Care, Medicine and Science

Run Time: 19 Min. GR: 9-12  
Subject: Health & Fitness

**Description:** According to the U.S. Bureau of Labor Statistics, about half of the 20 fastest-growing jobs in America are in the healthcare, medicine, and science areas of the health industry! This program spotlights a dialysis technician, an LPN, and a physical therapist—people who help fight illness and repair injury—and a dental hygienist and a dispensing optician—people who help improve the quality of life. And because pets are “people” too, the program also interviews a veterinary technician!
